ZOOM-ZOOM

Introducing the all-new Mazda2.

## Fly. In the face of convention

It's a rare pleasure when a new car comes along that defies the norm – flying in the face of convention. The all-new Mazda2 is just such a car.

Displaying an individual style when other cars are looking increasingly alike; lighter and more fuel-efficient when other cars are getting heavier and thirstier; smaller and more agile when other cars are getting larger and more unwieldy: the all-new Mazda2 is proof that avoiding the obvious choice can sometimes be the obvious choice...

Image on front cover shows Mazda2 1.5 5dr Sport with optional mica paint.

Image on right shows Mazda2 1.3 5dr TS<sup>2</sup> with optional metallic paint and accessory front fog lights.

# The power. To move you

The all-new Mazda2 is a true driver's car – so it's available with your choice of responsive 1.3 (75ps), 1.3 (86ps) or 1.5 (103ps) petrol engines – plus an advanced common-rail turbocharged 1.4 (68ps) diesel. Each of these engines is designed to produce ample torque at low revs, enabling quick getaways from the lights in town driving. They also combine with the all-new Mazda2's light weight to provide agile handling, with accurate responses to your steering and throttle inputs, plus power when you need it for rapid overtaking manoeuvres.

# Keen. To create the right impression

Mazda2's irresistible looks and dynamic handling are now complemented with the introduction of a sporty 3dr version. With no compromise on interior space and easy entry and exit, the front seats tip and slide forward, providing wide access points for rear passengers.

# Poised. For action

Mazda2 3dr looks every inch the sporting coupé, with aggressively sloped side contours, unique design side skirts and flared wheel arches. Just like the 5dr version, it provides a perfect combination of driving thrills and safety.

Image shows Mazda2 1.5 3dr Sport with optional pearlescent paint.

# Style. With substance

The all-new Mazda2's blend of sharp contours and soft curves combines with the steeply sloping waistline and distinctive headlights to give the car a sporty, dynamic appearance: even standing still, it looks poised to leap forward. The Mazda2 TS<sup>2</sup> and Sport models are equipped with stylish alloy wheels and electric folding body-coloured door mirrors, and the Sport model really stands out amongst the crowd with front fog lights, a body-coloured sports grille, side skirts, a sports front bumper as well as a rear sports spoiler.

Image shows Mazda2 1.5 5dr Sport with optional mica paint.

# Everything. In the right place

The all-new Mazda2 is designed to interact with you. So it doesn't just have power steering – it has Electric Power Assisted Steering (EPAS) that feels neither too heavy nor too light, reduces steering effort at low parking speeds and is combined with a quick steering ratio for easy manoeuvring on busy urban roads as well as providing excellent stability at high speeds. Similarly, quick, effortless gearshifts are easy thanks to the high-mounted short-throw gear lever, and the front seats aren't merely adjustable – they offer best-in-class adjustability, so you can find the perfect driving position. And you can enjoy the extra convenience of cruise control and a speed alarm in the Sport, plus electric folding mirrors and steering wheel-mounted remote audio controls in the TS<sup>2</sup> and Sport.

22

# Light. Years ahead

The same weight-saving 'gram strategy' that helps Britain's favourite sports car, the Mazda MX-5, perform so well, has been applied to the all-new Mazda2. For example, the bodyshell uses high-tensile steels that make the car quieter, extremely strong and, when combined with numerous other weight-saving measures, lightweight, at less than 1,000kg. This means that whichever lightweight Mazda2 you choose, it will perform better, sip less fuel and produce lower CO<sub>2</sub> emissions.

# Less weight. More go

Each new generation of 'superminis' is getting larger and heavier. Inevitably, this makes them slower, thirstier and less agile. The all-new Mazda2 is different. It's lighter, making it faster, more fuel-efficient and more fun to drive. It's also got an all-new, lightweight, sports-tuned chassis. So it's quick to react to your inputs – whether from the steering wheel, throttle or brake pedal – making it ideal for nipping in and out of busy city traffic, easier to park and perfect for that spur-of-the-moment country getaway.

## DSC system

Dynamic Stability Control (DSC) enhances driving stability when cornering and during rapid evasive manoeuvres by automatically limiting engine power and applying the brakes on individual wheels, thus maintaining control in situations when the vehicle might otherwise tend to oversteer or understeer.

## 4W-ABS

Four-wheel Anti-lock Braking System (4W-ABS) with Electronic Brake-force Distribution (EBD) is designed to prevent skidding, helping you to stay in control during emergency braking on wet or snow-covered roads. Surefooted under pressure.

# Safe

The all-new Mazda2 has been designed to keep you and your family safe. The lightweight, extremely rigid bodyshell forms a strong defensive cage around those inside. This is complemented by the extra protection offered by crumple zones plus, in the rear, ISOFIX anchorages help keep your kids safely secured.

## Airbags

Driver and front passenger side and curtain airbags\* combine with front seatbelt pre-tensioners and load-limiters to significantly reduce the likelihood of injury in a collision.

\* Side and curtain airbags standard on TS<sup>2</sup> and Sport and optional on TS petrol models.

## Security

A Thatcham Category 1 alarm and immobiliser as standard on all Mazda2 models helps deter unwanted attention.

The Mazda2 5dr provides the optimal adult occupant protection with a maximum 5-star Euro NCAP rating proving it is one of the safest cars in its class.

\*Mazda2 Euro NCAP 5-star adult occupancy rating only refers to 5dr hatchback models.

### **Mazda Credit\***

Mazda offers a variety of finance, leasing and payment protection schemes to suit the needs of both private and business customers. With our wide choice of plans and services, no-one is more committed to delivering complete motoring confidence and total peace of mind than Mazda and Mazda Credit.

Mazda MultiOption – Enjoy the flexibility of choosing a contract term which best suits your needs. Flexibility to keep, return or exchange your Mazda at the end of the agreement. Protected against fall in used car prices by an Optional Final Payment (Guaranteed Minimum Future Value).

Mazda MultiOption Cashplan – All the benefits of MultiOption but with no regular payments.

Mazda Hire Purchase – A simple, straightforward and traditional funding plan.

### **Mazda Business Partner**

As a Mazda corporate customer, you'll find that Mazda vehicles are designed to fulfil the diverse needs of a modern company. Our corporate service offers attractive purchase prices, low running costs and market-driven residual values, resulting in extremely competitive ownership costs.

To find out more about the benefits of Mazda Credit and Mazda Business Partner speak to your Mazda dealer today.

### **Digital Service Record**

The Mazda Digital Service Record (DSR) system provides increased security against counterfeit service documents and odometer tampering, and makes it easy to keep the service history up to date. Stored on a central database, the DSR replaces the traditional paper service book and ensures a secure, accurate and permanent service history for the life of the vehicle.

### **Your Mazda dealer:**

Mazda Motors UK Limited reserves the right to introduce changes in specification and equipment due to its ongoing product development. Colour and trim samples shown in this brochure may vary from the actual colours because of limitations in the printing process. It is recommended that you consult your Mazda dealer when referring to these.
